

CARLO VICENTE VILLANOBOS

Web/Software Developer

✉ panercarlo99@gmail.com ☎ 0966-289-5495 📍 Dipolog City, Philippines 🔗 carlo.is-a.dev

EXPERIENCE

Department of Science and Technology

Web Developer - Internship

- Developed and optimized web applications using Node.js, React, CodeIgniter, and Laravel, improving system performance
- Collaborated with a team to implement security measures, enhancing application security
- Assisted in debugging and troubleshooting issues, ensuring smooth deployment

OBI Services (obi.services)

On-the-Job Training

- Assisted in the development and maintenance of e-commerce websites, minimizing website downtime
- Implemented UI/UX improvements, leading to a better user experience
- Conducted testing and debugging to ensure optimal website functionality

Agency

2024 - Present

Web Developer / AI Developer

- Developed AI-powered applications that automated data processing, reducing manual workload
- Integrated machine learning models into web platforms, improving efficiency in predictive analytics
- Deployed and managed applications using Docker, ensuring seamless scalability
- Designed and implemented API solutions, enhancing third-party integrations for various platforms

Upwork

2020 - Present

Freelancer

- Designed and developed customized web applications for multiple clients, ensuring high client satisfaction
- Built and deployed WordPress and Shopify websites, leading to increased online store sales
- Provided ongoing website maintenance and troubleshooting, maintaining website stability

FlagDisplays.com

2020 - 2024

Technical Support

- Provided remote technical support for website-related issues, improving customer experience
- Managed website updates and improvements, leading to better site performance
- Assisted in backend development tasks to optimize functionality

EDUCATION

Bachelor of Science in Computer Science

Jose Rizal Memorial State University

2020 - 2024

EXPERTISE

Web Development

Software Development

Mobile Development

API Development

AI & Machine Learning

Cloud Management

Cybersecurity

TECHNICAL SKILLS

Version Control

Proficient in Git for managing code versions and collaboration

JavaScript Frameworks

Experience with Node.js and React for web applications

PHP Frameworks

Skilled in CodeIgniter and Laravel for back-end development

Python

Strong experience in AI and machine learning applications

Docker

Experience in containerization and deployment

Cloud Management

Familiarity with cloud platforms for application deployment

SOFT SKILLS:

Problem-Solving

Ability to identify and resolve issues efficiently

Adaptability

Quick to learn and apply new technologies

Collaboration

Teamwork experience in shared codebases and development efforts
